EDUCATION

Kohat University Of Science & Technology (kust)

BS Computer Science | Kohat, Pakistan | 2022 – 2026

PROFESSIONAL EXPERIENCE

Founder SalonySpark.com

salonyspark.com | Kohat, Pakistan | 2026 – Present

- Founded and led Salonyspark, a salon booking platform focused on simplifying appointment management and improving the customer experience for salons and their clients.
- Defined the product vision, features, and technical direction of the platform.
- Led development of the mobile application using Flutter and Dart.
- Designed and implemented appointment booking, salon management, user authentication, notifications, and related workflows.
- Worked with Firebase and backend services for data management, authentication, and real-time functionality.
- Coordinated product development, UI/UX, testing, deployment, and continuous improvements.
- Focused on building a scalable, user-friendly solution addressing real-world challenges in salon appointment management.

Founder CrickTap.com

CrickTap.com | Kohat, Pakistan | 2026 – Present

Founded and led CrickTap, a cricket-focused mobile application designed to enhance the experience of cricket spectators through live match updates, ball-by-ball scoring, and interactive features.

- Defined the product vision, technical architecture, and feature roadmap.
- Led the development of the mobile application using Flutter and Dart.
- Implemented live ball-by-ball match updates and interactive spectator features.
- Integrated Firebase for authentication, cloud data management, and real-time application functionality.
- Implemented push notifications to keep users informed about match events and updates.
- Managed application testing, debugging, optimization, and deployment to the Google Play Store.
- Coordinated product development from concept and design through development, testing, and launch.
- Focused on delivering a reliable and engaging mobile experience for cricket spectators and users.

LogicCraft Technologies pvt ltd

Kohat, Pakistan | Flutter Developer | 2024 – 2025

- Worked as a Flutter Developer at LogicCraft Technologies, contributing the development of cross-platform mobile applications using Flutter and Dart. Collaborated with the development team to implement responsive user interfaces, integrate APIs and backend services, troubleshoot application issues, and improve overall application performance. Gained practical experience in software development workflows, Git version control, debugging, testing, and delivering reliable mobile applications based on project requirements.

Entrepreneur at AppySpark

- Founded and led a technology startup focused on freelancing and IT services, delivering digital solutions and creating income opportunities for young professionals.
- Grew the venture into an active contributor to Pakistan's freelance and IT-services ecosystem.
